

KIM ROTA

ABOUT ME

Currently in my third year of Interactive Media Design, I'm driven by a passion for creative direction, cinema, and photography. I love shaping ideas into visual moments, images that feel alive and intentional. Drawn to the interplay

of storytelling, creativity, and rhythm, I naturally gravitate toward music videos, photography, and film. Curious by nature, I'm always exploring new ways to create, experiment, and push my work in fresh, unexpected directions.
